Perugia Umbria, Perugia, Italy -

After breakfast, you will be transferred to Perugia to begin your day of touring.

We will start from Piazza Italia to go down to the Rocca Paolina, an entire underground district buried by the papal will that will transport us back and forth in time, from the Etruscans to Garibaldi and La Belle Epoque. We will see the Porta Marzia, ancient southern entrance to the Etruscan city with remains inscriptions and papal coat of arms.

Then we will continue to the living room of the city, Corso Vannucci, dedicated to Perugino, a painter whose masterpiece (the Collegio del Cambio) remains unique throughout Italy: it is a 1500 bank completely frescoed by the artist. In the Corso the terraces of the bars, the windows of the beautiful clothing shops and those of typical products alternate.

We will arrive in Piazza IV Novembre where the Fontana Maggiore proudly dominates, a compendium of popular wisdom of the thirteenth century, next to the Cathedral of San Lorenzo, the Palazzo dei Priori and the Palazzo dei Notari.

We will end up at the Porta Sole viewpoint and here we will see another peculiarity of Perugia and that is how the city is set in the landscape of soft green hills covered with silvery olive groves.

While we will return to Piazza IV Novembre I will tell you the story of Luisa Spagnoli and her most famous creation: the Bacio Perugina

Enjoy lunch on your own, You will also have tickets to view the National Gallery.

📍 Norcia, Umbria 06046, Norcia, Italy -

Explore the wonderful city of Norcia in the company of our specialized guides and see the fascinating combination of nature and architecture. The most important piazza in the town also hosts the most interesting sites, such as the ancient Roman pagan temple dedicated to the *Goddess Fortuna Argentea*, which is now the Cattedrale di Santa Maria Argentea. Inside there are several noteworthy works, including a beautiful fresco by the *bottega degli Sparapane* (*Sparapane* family workshop) and a Crucifix by the sculptor *Giovanni Teutonico*. In the same square, Piazza San Benedetto, we'll stop to look at the remains of the Basilica di San Benedetto, of which only the facade, apse and part of the naves remain as a result of a violent earthquake in 2016. Inside the Basilica the ancient house of San Benedetto and his twin sister, Santa Scolastica, are apparently synonymous with the crypt, where you can also see the remains of an ancient Roman building. Take the time to contemplate the majestic and imposing Palazzo Comunale and the striking fortress of La Castellina right opposite. Visits are allowed inside La Castellina, where you can see various treasures exhibited in the Museo Civico which is housed within. We will walk along the charming alleyways that characterise the village of Norcia and stop to admire the Tempietto, a masterpiece of medieval sculpture which has a 14th-century fresco depicting the Madonna with Child and saints enclosed within it.
